### **SOLAR BAT TENNIS SPECIFIC SUNGLASSES: FEATURES**

Solar Bat offers the only sunglasses that have lenses developed specifically for tennis with all the following features:

- the lenses mute all colours except for optic yellow (the ball) and white (the court lines), meaning you see both much more clearly.
- the lenses have a darker gradient along the top to minimise “sun blindness” when serving and hitting overheads.
- the frame has adjustable nose pads so you can position the lenses at the most comfortable distance from your eyes.
- temperature controlled grips on the temples ensure the sunglasses stay in place in even the most extreme conditions.
- both sides of the lenses have double coated scratch resistance.
- the lenses are 100% UV protective.
- the frame is unisex and fits players of all ages from 10+.
- developed by an optometrist.
